Packaging Systems
**Applications**

Applicable for packing various irregular objects, Adhesive objects and Solid objects, such as food including Egg Rolls, Sausages, Squids, Instant noodles, Snow cakes, Preserved Fruits, Jelly drops, Soaps, Detergents, Chikkies, Tissues etc.

**Salient Features**
- Dual frequency conversion control to cut bag length & set output speed in one step through PLC MMI saving time and film
- Interface features are easy for quick setting and operation
- Self diagnosis failure function, with clear failure display.
- High Sensitivity photoelectric eye colour mark sensor
- Numerical input of cutting sealing position which makes the sealing and cutting more accurate.
- Independent PID Temperature control, more suitable for packing beautiful and tight sealing, suitable for a wide variety of flexible packaging material.
- Simple drive system, reliable working, convenient maintenance
- All the controls are realized through software, easy for function adjusting and technical upgradation.

**Optional Features**
- Full SS construction
- Hot Roll type Batch Printer
- Ink felt type Batch Printer
- Nitrogen flushing attachment
- No Product- No pouch feature
- Material cut prevention devise
- Gusseting device with Single Jaw (Applicable for models WH 350 & WH 450 only)

---

**Applications**

Applicable for packing various solid regular objects, such as Monocake, Bread, Biscuits, Candies, Rices Rispies Treats, Snow Cake Custard Cake Chocolates, Soaps, Detergents, Chikkies etc.

**Salient Features**
